Network settings info Edit

Network Info  
vpc-02ee64a657dc59abb

Subnet Info  
No preference (Default subnet in any availability zone)

Auto-assign public IP Info  
Enable

Firewall (security groups) info  
A security group is a set of firewall rules that control the traffic for your instance. Add rules to allow specific traffic to reach your instance.  
Create security group Select existing security group

We'll create a new security group called 'launch-wizard-1' with the following rules:
